3. Making Payments

Once you register on the Tabby App and open a Tabby Cash Account, you can access our Wallet Services. This means you can use your Tabby Cash Account to make payments to

different merchants or service providers and instantly transfer funds to other wallets and bank accounts, provided you have sufficient funds.

Your Tabby Cash Account is a virtual wallet (also known as an e-money account) and is not a traditional bank account. There is no overdraft facility attached to it. Your Tabby Cash Account is intended for personal use only and must not be used to conduct business or commercial activities.

You will have access to an account statement via the Tabby App, which details all transactions to and from your Tabby Cash Account, enabling you to monitor and track your activity.

4. Topping Up Your Tabby Cash Account

You can add money to your Tabby Cash Account using:

- your mobile device's virtual wallet, like Apple Pay, Google Pay or similar services;
- bank transfers or other virtual wallet transfers; or
- a debit card.

We may charge a fee when you top up your Tabby Cash Account. The exact amount is provided in the [KFS](#) and may change over time. We will notify you of additional methods of topping up your Tabby Cash Account from time to time. If we introduce the ability to top up your Tabby Cash Account using a credit card, please note that your card issuer may charge an additional fee for this purpose.

When you open a Tabby Cash Account, you'll need to top it up with a minimum amount, as stated in the [KFS](#). Any funds added to your account will appear as your Available Balance. You can use this balance to make payments or instant transfers, up to the limit set out in the [KFS](#).

By linking a Payment Method to your Tabby Cash Account, you authorise us to automatically charge such Payment Methods to fund your Tabby Cash Account where a transaction is initiated and your Tabby Cash Account has insufficient funds. This authorisation includes payments for any services provided to you by Tabby Payments or its Group Entities in connection with your use of Tabby Cash.

You may also enable auto top-up settings, under which you authorise us to automatically top up your Tabby Cash Account (without limitation) where your account balance falls below a specified threshold or in such other circumstances as may be introduced by us from time to time.

You may only top up or receive transfers into your Tabby Cash Account per the Monthly Top-Up Limit and the daily spend limit, as outlined in the [KFS](#).

We reserve the right to refuse a top-up request or a transfer at our absolute discretion, including (without limitation) where the top-up or transfer would exceed the Monthly Top-Up Limit or daily spend limit. If a top-up request or transfer is refused, the funds will be returned to the funding source. We are not responsible for any applicable currency conversion rate, fees or charges related to this.

5. Virtual IBAN

You will have access to your virtual IBAN which you may be able to share with third parties to receive transfers in your Tabby Cash Account.

6. Tabby Cash Card

When you open your Tabby Cash Account, a free virtual Tabby Cash Card is issued to you. This card will be activated upon request and will remain valid until the expiry date indicated on the card. We may offer physical Tabby Cash Cards to you at our discretion.

Your Tabby Cash Card will be linked to your Tabby Cash Account, meaning you can spend the Available Balance from your Tabby Cash Account. You are solely responsible for ensuring that sufficient funds are available for any transaction. If, for any reason, you do not have an Available Balance that is equal to or higher than the transaction, the transaction will be rejected.

Your Tabby Cash Card can be used online on third-party websites and platforms, and in-store at checkout. You can set a PIN for the Tabby Cash Card at your discretion through the Tabby Cash Account. If you use your Tabby Cash Card to pay for products or services in a different currency, you may be charged additional foreign exchange fees or be subject to varying exchange rates. We are not responsible for any applicable currency conversion rate, fees or charges related to this.

If you believe the security of your Tabby Cash Card has been compromised (for example, if it has been used without your permission), you must freeze it immediately through the Tabby Cash Account. Upon expiry or unauthorised access of your Tabby Cash Card, you may select

to have it reissued through the Tabby Cash Account. Tabby may charge a fee for its reissuance, as outlined in the [KFS](#).

You must not use the Tabby Cash Card for any illegal purposes, including, but not limited to, fraud, money laundering and purchasing goods or services that are prohibited under UAE law. If you attempt to use the Tabby Cash Card for any such purpose, we have the right to decline the transaction(s), block your Tabby Cash Card and/or terminate access to the Tabby Cash Product. To make a transfer, simply add the recipient's account details, currency and the amount you wish to transfer and we'll take care of the rest. For certain countries, additional information may be required to complete an international transfer.

As this service is provided through a licensed remittance partner, a transfer fee will apply, as outlined in the [KFS](#) and displayed in your Tabby Cash Account before you confirm the transfer. This fee is added to the transfer amount and collected by us on behalf of the licensed partner. All transfers are subject to the licensed partner's terms and conditions.

Once the transfer is initiated, the transfer amount and any applicable fees will be deducted from your Tabby Cash Account and sent to the recipient. You will receive updates on the status of the transfer and will be notified once the funds have been successfully delivered. If you receive funds through a global transfer and the amount received is less than the amount sent by the sender, this may be due to currency conversion fees, intermediary bank charges, or other deductions applied by third parties. Tabby does not control, determine, or receive such fees and is not responsible for any resulting difference between the amount sent and the amount received.

Tabby shall not be liable for any delay in the processing, sending, or receipt of a global transfer where such delay is caused by a third party, including payment service providers, correspondent banks, beneficiary banks, or regulatory or compliance processes.
